

Easy Access Moodlebar

This plugin will provide quick links to all the course updates, upcoming events, and forum posts from all the course modules a user is enrolled to.

- Works with Moodle 2.0+
- Smooth and intuitive user interface

Figure 1: Easy Access Moodlebar

From left: Assignments, Quizzes, Resources, Upcoming Events, Forum Posts, and Other Activities. In Assignments, Quizzes, Resources, and Other Activities, both added and updated links are provided.

How to install

1. Download and unzip easy_accessbar.zip in layout directory, located inside your **theme** folder.
2. Add the following code to your all of PHP files located in your layout directory just after the body tag <body>.
❖ `<?php include('easy_accessbar/easy_accessbar.php'); ?>`
3. Save the files.
4. Login to your Moodle account and you will see the Easy Access Moodlebar on the top of the web page.

Using the Easy Access Moodle bar

When a user logs in to his Moodle account, if there are new course updates (new Assignments, Quizzes, new Resources, and etc...), upcoming events, and new forum posts, the Easy Access Moodle bar will show them with the number of new events. See the below image.

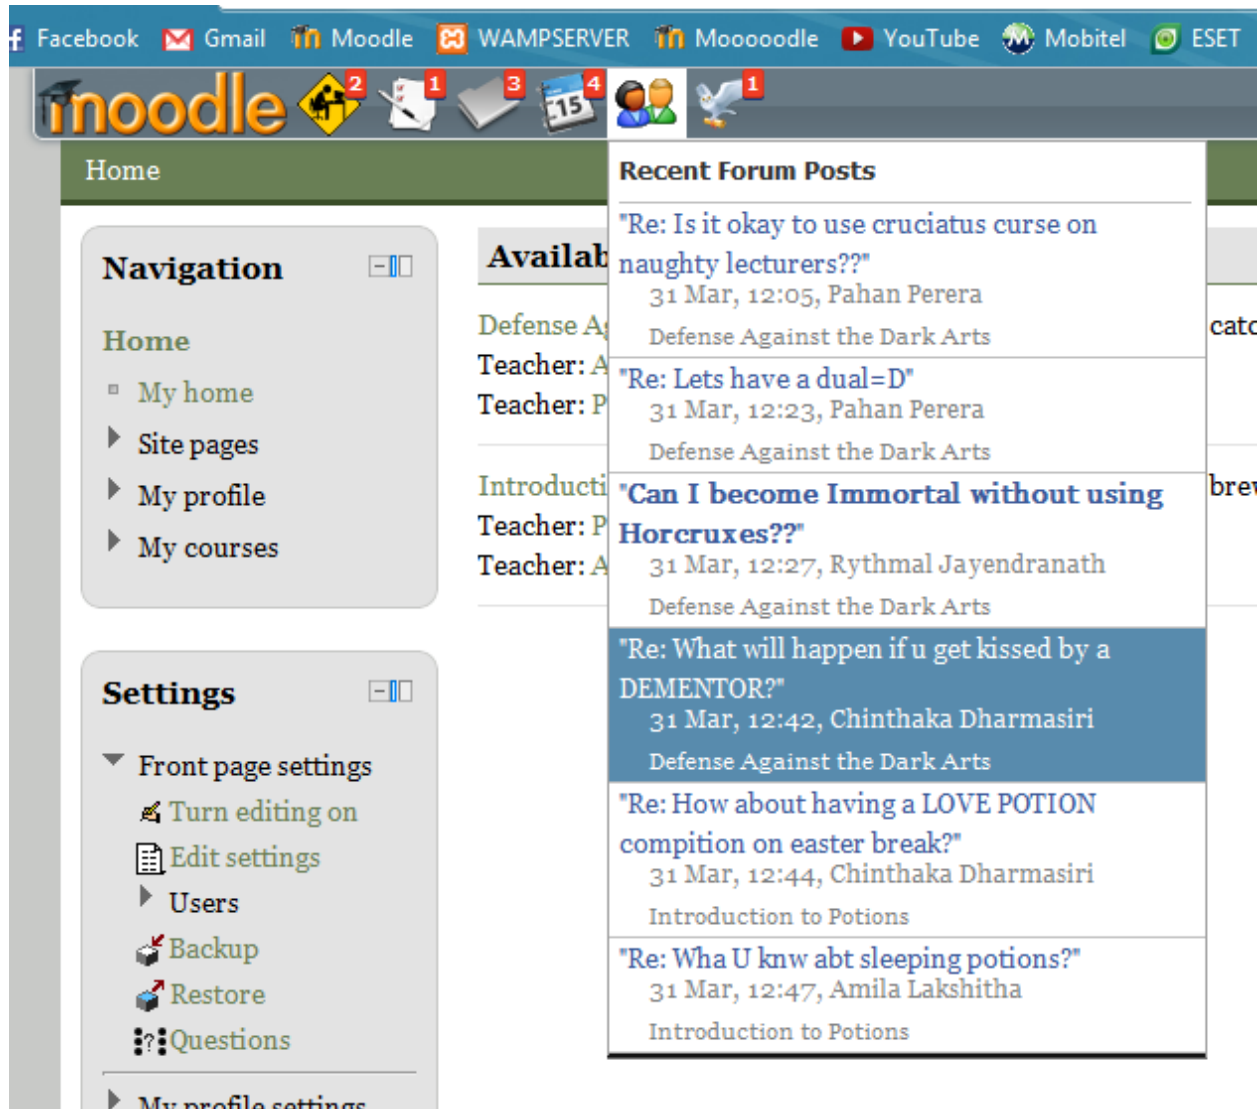

Figure 2: Access new forum posts

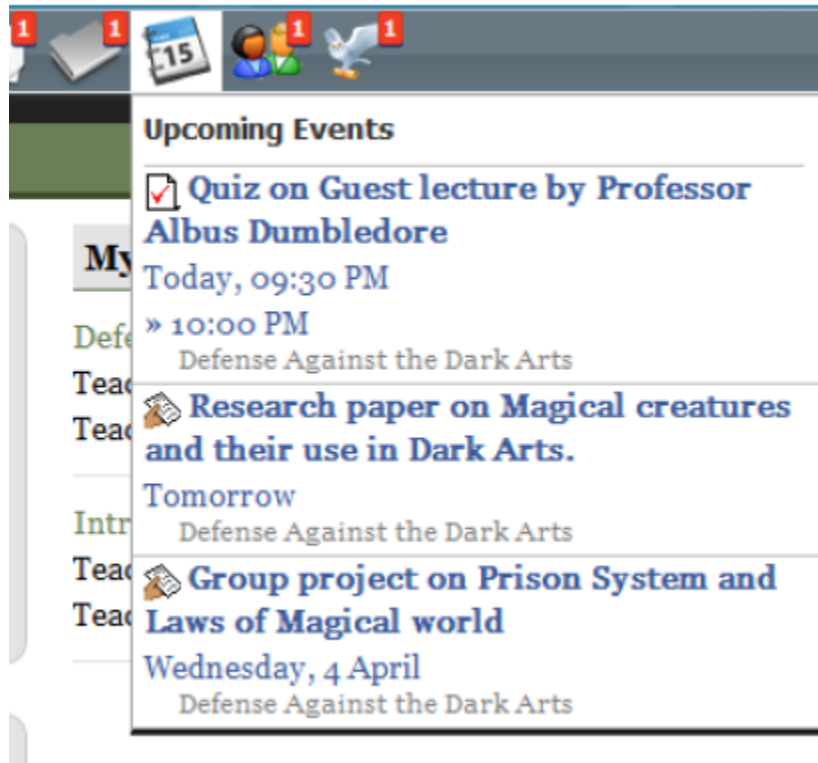

Figure 3: Access Upcoming Events

Configuration

To change the images, simply open the `easy_accessbar.css` file and edit the relevant image source paths.
